## Your Website Should Bring You Customers, Not Headaches.

If your site is slow, outdated, or goes down at the wrong moment, it costs you real business. Shared Synergy keeps your website fast, secure, and fully managed so you can focus on running your company.

### Built for Local Service Businesses

Whether you run an HVAC company, landscaping business, plumbing service, electrical contracting firm, or any local shop that depends on customers finding you online, your website needs to:

- **Show up quickly:** Load fast when customers search on mobile.
- **Stay reliable:** Stay online during your busiest seasons.
- **Convert visitors:** Capture every lead, every call, every form submission.
- **Build trust:** Look professional next to bigger competitors.

*We make sure all of that happens, every day, without you having to think about it.*

### What Happens Without the Right Hosting and Maintenance

Most small business websites fail in predictable ways:

- **Slow load times:** Visitors leave before the page loads. Google ranks you lower. Leads go to your competitor.
- **Security gaps:** Outdated plugins and weak security become an open door for hackers and ransomware.
- **Unexpected downtime:** An hour of downtime during peak season can cost more than a year of professional hosting.
- **No one to call:** When something breaks, the freelancer who built your site is unreachable, or charges \$200 to fix a typo.

*We eliminate those risks for you. One predictable monthly fee. One team that knows your site.*

---

# Hosting + Maintenance Plans

*Start where you are today. Scale as your business grows.*

All plans are month-to-month with no long-term contract. Pay annually and get one month free.

*Standard Plan is our most popular for growing local service businesses.*

## 1. Basic Plan \$49.99/month or \$549.89/year (one month free)

*For brochure-style websites and solo professionals who need a reliable online presence.*

### What's included:

- Fast, reliable shared hosting optimized for small business websites
- SSL certificate so visitors see the secure padlock and trust your site
- Daily automatic backups so you never lose your website or customer data
- Software and plugin updates to keep your site secure and current
- Email support from a real human, not a chatbot

**What this means for you:** Your website stays online, secure, and updated without you having to think about it. Perfect if you just need a professional online presence that works around the clock.

**Ideal for:** Solo HVAC techs, handymen, individual landscapers, independent consultants, and small local businesses with a basic website.

## 2. Standard Plan \$99.99/month or \$1,099.89/year (one month free) MOST POPULAR

*For growing businesses that need more support, more traffic, and more peace of mind.*

### What's included:

- Everything in the Basic Plan, plus:
- Enhanced security and firewall with active malware scanning to catch threats before they cause damage
- Monthly performance report so you can see how your site is doing
- Up to 1 hour of content updates each month (new photos, updated hours, holiday specials, small fixes, we handle it)
- Staging environment so we test changes safely before they go live, your site never breaks in front of customers

**What this means for you:** You get a partner who is actively watching your site, making small updates as your business changes, and catching problems before customers ever notice. This is the sweet spot for most local service companies.

**Ideal for:** Growing 5 to 15 employee landscaping, HVAC, plumbing, or electrical companies that get steady web traffic and need someone keeping an eye on things.

## 3. Premium Plan \$199.99/month or \$2,199.89/year (one month free)

*For businesses where downtime costs real money and speed converts more leads.*

### What's included:

- Everything in the Standard Plan, plus:
- VPS or cloud hosting for faster page loads, even during your busiest season
- Priority support with faster response times when something needs attention
- Up to 3 hours of updates and tech support each month
- SEO plugin optimization to help you rank higher in local search results
- Monthly Google Analytics review showing where your leads come from and what's working
- BONUS: Stripe payment gateway setup included (one-time setup, ready for e-commerce)
- BONUS: One UGC-style customer testimonial video per quarter (4 per year)

**What this means for you:** Your website becomes a real business asset. You see what's converting, your site loads fast on mobile, you can take payments online, and you get fresh testimonial content each quarter to fuel your marketing. This is where hosting stops being an expense and starts being a growth engine.

**Ideal for:** E-commerce shops, growing services companies running ads, consultants, agencies, and any business doing online booking or payments.

## 4. Custom Plan Starting at \$250/month or Custom annual pricing/year (one month free)

*For complex needs, mission-critical sites, and businesses ready to scale beyond standard hosting.*

### What's included:

- Tailored hosting infrastructure built around your specific requirements
- Dedicated server or scalable cloud infrastructure
- Advanced development support for custom features and integrations
- 24/7 monitoring with proactive alerting
- Custom integrations with your CRM, scheduling tools, payment processors, or other APIs
- Up to 10 hours of support and content updates each month

- INCLUDES: All Premium Plan bonuses (Stripe setup, quarterly UGC videos)
- INCLUDES: Custom application development capacity (order tracking, predictive analytics, custom integrations, scoped to your needs)

**What this means for you:** A fully managed solution engineered around your business. You get enterprise-grade infrastructure, dedicated technical attention, custom application development built to your specifications, and the compliance posture you need without building an internal IT team.

**Ideal for:** Multi-location operators, franchises, healthcare practices (HIPAA), financial services, e-commerce businesses scaling fast, and any business with mission-critical or compliance-driven requirements.

## Beyond Hosting: Additional Services

*Hosting is just the foundation. Here's what else we can build for you.*

### FLAGSHIP OFFERING

## Custom Order Tracking + Predictive Analytics

Stop tracking orders in spreadsheets. We build custom-designed order tracking systems that let you mark fulfillment status, manage customer orders end to end, and run predictive analytics on your real business data. See what's selling, forecast demand, spot bottlenecks before they cost you revenue.

*Custom quote based on your specific needs.*

### Additional Services Available to Any Plan

#### Custom Video Production

Professionally produced videos showcasing your products, services, and team. From short product highlights to multi-scene company stories, we handle scripting, production, and editing so you have video assets that convert.

*Custom quote*

#### UGC-Style Customer Testimonial Videos

Authentic customer testimonial videos that build trust and drive conversions. Perfect for service businesses where social proof is the difference between a phone call and a missed lead. Available as one-time projects or ongoing monthly content.

*Custom quote*

#### Payment Gateway and E-Commerce Integration

Stripe, PayPal, and other payment processor setup. Full e-commerce builds with product catalogs, shopping carts, and automated order confirmations. Turn your website into a real revenue channel.

*Custom quote*

### Custom API Integrations

Connect your website to anything. CRM systems, scheduling tools, raster-to-vector image processing through Vector Solve, third-party data feeds, custom data pipelines. If it has an API, we can integrate it.

*Custom quote*

### And Much More

Custom dashboards, customer portals, automated workflows, AI-powered features, membership systems, booking engines, and other custom development. If you can describe what you need, we can build it. Just ask.

*Custom quote*

## Why Shared Synergy vs. the Alternatives

	Big-Box Hosting (GoDaddy, Bluehost)	Shared Synergy
<b>Support</b>	Tier-1 reps reading from scripts. Long hold times.	A real human who knows your site and your business.
<b>Maintenance</b>	Set it up yourself. Updates are your problem.	We handle hosting, updates, security, and backups for you.
<b>When something breaks</b>	Open a ticket. Wait. Try the chatbot. Wait again.	Email or call. We respond same day during business hours.

## What You Get With Every Plan

- **Enterprise-grade expertise:** Built and managed by a team with deep enterprise-grade technology expertise, delivered at small business pricing.
- **No long-term contracts:** Cancel any time. We earn your business every month.
- **A named point of contact:** One person who knows your site and your business, not a rotating help desk.
- **Simple onboarding:** We migrate your existing website to our hosting in 5 business days or less, with zero downtime.
- **Transparent pricing:** One predictable monthly fee. No surprise charges for routine updates.

### Refer a Business, Get a Month Free

Know another business that could use reliable hosting and maintenance? When your referral signs up for any plan, we credit your account with one month free. Refer as many as you like. There is no cap.

---

## Not Sure Yet? Let Us Show You What's Possible.

**FREE**

### SEO Audit of Your Current Website

We'll audit your existing website and show you exactly where you're losing visibility, page speed, mobile performance, search rankings, security gaps, and conversion blockers. You get a clear report with specific recommendations you can act on, whether you work with us or not.

**FREE**

### Preview of a New Website for You

Here's our promise: if you have an existing website, we'll build you a new version of it for free so you can see exactly what's possible. If you love it, you pay and we launch it. If you don't, you owe us nothing. No risk, no pressure, just a real look at what your website could be.

*We're confident enough in what we build to put it in front of you before you spend a dollar.*
